

Make Your Name a Tune

Explore the world of composing with a simple way to generate a melody - Using your name!

Using the chart below

1. Convert your name (first AND last, middle optional) into a line of note names
2. Using your band instrument, create and play a tune made out of your name
3. The melody must be at least 8 measures long. This means you might have to repeat your name melody.
4. You may not use the notes out of order or repeat notes unless your name calls for it.
5. You should use any rhythms you think make your notes sound interesting... Make sure to write the notes correctly and add a TIME SIGNATURE
6. Use at least two instances of musical expression that you would like (articulations, dynamics, tempo) and notate them in the music.
7. Record a video of your new tune

Letter	A	B	C	D	E	F	G
Note played	A	B	C	D	E	F	G
Letter	H	I	J	K	L	M	N
Note played	A \flat	B \flat	C \flat (B)	D \flat	E \flat	F \flat (E)	G \flat
Letter	O	P	Q	R	S	T	U
Note played	A \sharp	B \sharp (C)	C \sharp	D \sharp	E \sharp (F)	F \sharp	G \sharp
Letter	V	W	X	Y	Z		
Note played	A	B	C	D	E		

First Name _____

Notes _____

Middle Name _____

Notes _____

Last Name _____

Notes _____

Feel Free to use the lines below to write your music if you can print. If not, just re-create this on a separate piece of paper. First 4 lines are for treble clef instruments, last 4 lines are bass clef.
